

VET for School Students

Approved Evidence for Completion of a Relevant VET Pathway Guide

How to use this Guide

The guide is designed to ensure that there is clarity on what is accepted evidence to demonstrate a school student has completed a relevant VET Pathway to meet eligibility requirements. The guide was developed in conjunction with training providers, school sectors and Department for Innovation and Skills key staff. The guide will be reviewed annually to ensure that it remains current.

Schools can use the guide to help school students explore different ways in which they can prepare for a VET pathway. The table below outlines a range of activities that will ensure the option selected is relevant to the preparatory needs of the course and the school student.

The guide provides specific details on what evidence is accepted for the range of activities and the form it must take to assist schools to ensure the evidence is collected by the student and/or school, recorded and provided in the manner described in the table below, before uploading the evidence with the School Student VET Referral form.

Training providers must use the table below to ensure the evidence provided complies with this standard so that they are able to effectively determine if it demonstrates the school students meet the eligibility criteria of having completed a relevant VET pathway. It is a training providers responsibility under their FAA to determine if the evidence provided meets the eligibility criteria.

Important information

* The category of Relevant SACE Curriculum Based Project Work in the table is only accepted as the only category of activity selected, where the industry the course is aligned to does not provide opportunities for Relevant Industry Exposure or Relevant Accredited Training.

Multiple categories of activities can be selected by the school if the school student has completed activities across any two or three with accompanying evidence uploaded with the referral form.

Training providers will use the evidence provided to determine if it is relevant to the chosen VET pathway and demonstrates completion of preparation for the category or categories of accepted activity.

School Based Apprentices and Trainees are not required to demonstrate a completed VET pathway as part of their eligibility.

The evidence provided can be used by the training provider during the VETRO assessment of suitability.

Table of Approved Evidence for Completion of a Relevant VET Pathway Guide (#1)

Category of Activity	Type of Activity	Evidence
 Relevant Industry Exposure	Part-time/casual work 	 Copy of email from employer, letter from employer, or a up to 2 page report from the school or employer that must include: • Start and finish dates • Total hours or equivalence in 7.5 hour long working days • Student name • Type of work experience and tasks • Organisation name • Contact person and their contact details • Signed and dated
	Volunteering 	
	Unpaid work in family business 	
	Virtual work experience 	
	Onsite work experience 	
	Training work placement 	
		 If work experience was undertaken as part of accredited or non-accredited training a copy of: • Certificate of participation or • Letter or email from work experience host in line with above requirements or • Work experience contract for insurance purposes
